

Who is God? Part 2

We must practice the art of long and loving meditation upon the majesty of God. This will take some effort, for the concept of majesty has all but disappeared from the human race. The focal point of man's interest is now himself. Humanism in its various forms has displaced theology as the key to the understanding of life.... God is a person and can be known in increasing degrees of intimate acquaintance as we prepare our hearts for the wonder.
